

INHIBIT GROWTH OF MICROBIAL **PERMA Mask**

Less skin irritation, acne, and odor as the cause from Microbial.

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & Certified by reputed testing laboratories around the world

Function

- Less skin irritation, rashes and acne
- Less damp and odor
- UV protection
- Acceptable GRS (Global Recycled Standard)
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL **PERMA Mask**

Less skin irritation, acne, and odor as the cause from Microbial.

PM2.5 Protection

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation, rashes and acne
- Less damp and odor
- UV protection
- Acceptable GRS (Global Recycled Standard)
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL

Ankel Socks

Sports Socks

Bussiness Socks

INNOVATION FOR SOCKS

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation, rashes and acne
- Less damp and odor
- UV protection
- Acceptable GRS (Global Recycled Standard)
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL PERMA Medical Sock

With our technology Nano Zinc Fiber Could take the humid to be Hydrogen Peroxide then inhibit the growth of microbial

Function

- Less skin irritation, rashes and acne
- Less damp and odor
- UV protection
- Acceptable GRS (Global Recycled Standard)
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Pillow Case

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & Certified by reputed testing laboratories around the world

Function

- Less skin irritation, rashes and acne
- Less damp and odor
- UV protection
- Acceptable GRS (Global Recycled Standard)
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Bed Sheet

Better quality of sleeping

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarantee
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL

Pillow

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarantee
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Lunch Box and Tumbler

Perma innovated inhibit the growth of Microbial.

Function

- Increase shelf life for 7 day
- Microwave able
- BPA Free
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Shoe Box

Perma innovated inhibit the growth of Microbial.

Function

- BPA Free
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Lady Underwear

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by eputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Whithout chemical coating and safety guarante
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Diaper

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarantee
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL

Bath Towel and Small Towel

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarante
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Plastic Gloves

Perma innovated inhibit the growth of Microbial.

Function

- BPA Free
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL

Patient Clothes

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarante
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Perma T-Shirt

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation, rashes and acne
- Less damp and odor
- UV protection
- Acceptable GRS (Global Recycled Standard)
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Conform

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarante
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Pillow Protector

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarantee
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Back Support

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarante
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL

Ankle Support

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarante
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Stump Socks

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarante
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Knee Support

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarante
- Safe and the environment friendly production

INHIBIT GROWTH OF MICROBIAL Splint Support

Perma innovated fibers inhibit the growth of Microbial. Perma products are Cytotoxicity prove Tested & certified by reputed testing laboratories around the world

Function

- Less skin irritation and rashes
- Breathable, less damp and odor
- Without chemical coating and safety guarante
- Safe and the environment friendly production
